

First Aid Scenario 1: You are at the district fun day. A six year old comes to you saying that she was just eating a snack when she was stung by a bee.

First Aid Scenario 2: You are at a meeting when someone tells you that their friend, aged 12, is not feeling well and needs help. You see she is wearing a diabetic ID bracelet.

First Aid Scenario 3: You are on holiday with your section when you notice a leader on the floor who appears to be having a seizure.

First Aid Scenario 4: You are outside a supermarket with your unit. A person approaches and tries to ask you a question. Her speech seems impaired and you cannot understand what she is saying.

First Aid Scenario 5: You are at the swimming pool. An adult leader is exiting the pool using the ladder, then slips and hits her mouth on the railing. When you approach the victim, you notice that she is missing a tooth, which she is holding in her hand, and bleeding from the mouth.

First Aid Scenario 6:

A 12 year old shouts from the kitchen area at camp and tells you help is needed. Another guide/scout has been burned by hot oil on his/her hand and wrist from the frying pan. The patrol are all screaming and the gas fire is still on.

First Aid Scenario 7:

Whilst trying judo at an activity day a child, aged nine, is thrown to the mat and suffers an open fracture of both bones in the forearm. There is significant bleeding from the wound. The child begins to complain of light-headedness, the skin is pale and feels cool and clammy, and the pulse becomes rapid and weak.

First Aid Scenario 8:

A member who is asthmatic participates in a game of basketball but forgets to take their medication before the game. During the game the player becomes very distressed, has difficulty breathing and begins to cough and wheeze.

First Aid Scenario 9:

You notice a child having trouble breathing, is complaining of a burning sensation in the neck and is vomiting. Next to the child is a bottle of bleach with the lid opened.

First Aid Scenario 10:

A child playing football gets tackled by the opponent illegally and causes a significant laceration to their knee. The child is bleeding profusely from the wound.

First aid scenario 11

At the district fun day an eight year old runs to tell you that there is an adult in the bathroom complaining of chest pain and going blue. What do you do? All the other leaders are at the camp fire circle at the other side of the field.

Scenario 12

A six year old comes towards you crying holding her thumb. She caught it on the lock in the toilet and it is sore and bleeding.
