

START CHANGING THE WORLD TODAY!

Not everyone in the world has access to clean water, toilets or washing facilities.

Scouts are trying to change this by taking part in A Million Hands and completing their Community Impact Staged Activity Badge.

How to start earning yours today:

The JOTA JOTI weekend is a great chance to speak to Scouts all over the world to understand other cultures and the issues that some face.

Here are some questions you could ask Scouts you meet over the JOTA JOTI weekend to start learning about water and sanitation:

-  Say hello first and explain what you're doing, find out what hello is in their language?!
 1. Did you know...650 million people (that's 1 in 11 people!) live without safe water? How do you know your water is safe?
 2. Did you know...2.3 Billion people (1 in 3!) don't have access to adequate sanitation? How many times have you washed your hands today? When do you wash your hands?
 3. The average child in the UK uses about 80 gallons (over 363 litres!) of water each day! How have you used water responsibly today?
-  *Say goodbye and thank you for talking to you!

Log the responses you get in a chart like the one on this page and compare your answers with others:

- What are your most surprising answers?
- Who spoke to the person furthest away?
- Who spoke to the most people?

	Answer	Country
1:		
2:		
3:		

Show this completed sheet to your leader as it could be used towards badges including your Community Impact, Global Issues and International Badges (depending on your section).
