

# THUMBS UP FOR ONLINE SAFETY

**Online can be an amazing place if everyone's respectful, speaks up, and stays safe.**

## Be a Scout

- Treat people how you want to be treated
- Avoid words that might offend others
- If you wouldn't say it out loud, don't say it online or on-air

## Be heard

- If you see or hear something you are not comfortable with, tell someone straight away
- Make sure your leaders know what you are doing online
- If someone asks you for personal info, tell someone straight away

## Be safe

- Pick usernames that don't give away too much personal data
- Don't share passwords – don't even tell your best friends
- Keep your address, phone number and email private
