

Resources for Leaders: preparing for action

Running programme activities before JOTI/JOTA will help your young people prepare for the event, know what to expect and stay safe. Here are some handy links to resources to use with young people to get them thinking about how they can make new friends and have fun online.

Stay Safe leaflets for young people ([available from Scout Shops](#))

Beatbullying packs for young people have internet safety activities for Beavers/Cubs/Scouts in them:

Disney Club Penguin activity packs

The new *Club Penguin* activity pack guides Cub Scouts through *Club Penguin's* online safety rules, shared through its campaign, *It Starts With You: Be Cool, Be Heard, Be Safe*. These three rules aim to inspire Cub Scouts to act responsibly whilst using the internet, and provide them with the tools to keep themselves safe online. [Resources are available from scouts.org.uk](#)

If you would like someone to come and talk to you or your young people about staying safe online, you could always talk to your County's Safeguarding Awareness Co-ordinator and ask them to come and run some Think-u Know sessions for the young people, or awareness activities with leaders.

A variety of other activities that look at internet safety are also available on the following websites:
